In claim 1, line 9, the phrase --without changing the FTIR spectra -- has been inserted after the term "delta-n" and "."

*Reasons for Allowance*

4. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or fairly suggest making a silica waveguides comprising depositing optical films by PECVD wherein a FTIR spectra is not altered even when the doping gas is adjusted while keeping the other variables constant.

The prior art teaches varying the precursor gases would vary the absorption properties measured by FTIR and no suggestion can be found that changing the doping gas would not affect the FTIR.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
